

## Technology Meeting Notes

December 2, 2008

Members present: Alison Ostertag, Cherrie Preut, Nola Crooks, Jennifer Dobbs, Noelle Walters, Mark Preut, Marci Feldkamp, Tim Foster, Susan Erickson, Kyle Kimmi, Charlie Watkins, Jamie Wetig

1. Minutes from the November 5, 2008 meeting were approved.
2. Promethean Boards - The demo was a success and very well received by staff members in attendance. The committee members talked about looking into getting at least one in every building.
  - \* Nola Crooks moved to look into obtaining Promethean Systems in our district. Cherrie Preut seconded. It was unanimously approved.
3. Technology Night - The general concensus was that we needed to tie Technology Night in with another activity - project night, food or something else going on at the school. We need to try and have better publicity - newspaper and/or radio coverage before. We need to plan well in advance to give teachers/students time to prepare.
4. Training: What kind of training does the staff feel that they need?
  - \* **Assignment:** Discuss with the staff members what kind of specific training that they need. Be prepared to report back at our next meeting.
  - \* **Suggest to PDC** - that we have sessions on specific technology needs at an in-service. The specific training will depend on staff needs, but should be small groups - perhaps we can use teachers in the district who feel adept enough in certain programs to teach to their peers.

Alison Ostertag moved to talk to PDC about technology training at a future inservice. Mark Preut seconded. It was unanimously approved.
5. Next Meeting - January 8, 2009 4:00 at the Central Office
