

In Science, the students will learn why the body needs different kinds of nutrients to keep healthy and how the body breaks down food through the process of digestion.

In Social Studies, the students will continue to work on identifying the location of the seven continents, the four oceans, and the compass rose. They will also discuss how people in our community interact with other people in Kansas.

In writing, the students will edit their expository writing piece about an object that is special to them. They will begin writing a narrative piece about something funny that has happened to them.
