10. weren't
11. she'd
12. who's
13. hadn't
14. where's
15. wouldn't

Pre-test will be given on Wednesday. If they pass the pre-test with a 100%, they do not have to take the final test on Friday!

## What's Happening?

### Math

Students will find values and rules through input/output tables and graphs. They will continue to work on division facts and 2 x 2 digit multiplication problems.

The students will also demonstrate the ability to solve one and two-step problems relating to real world concepts.

### Writing/English

Students will write a paragraph related to being thankful for what they have. The students will write about the topic of Thanksgiving and provide supporting details.

They will be published in the November Newsletter!

### Reading

The students will make inferences from information in text to draw conclusions.

They will also identify text structure such as: sequence, problem/solution, compare/contrast, and cause/effect.

### Science/S.S

Students will collect, observe, and become aware of properties of various earth materials. They will describe the properties of many different kinds of rocks.

## Teacher Comments

I want to thank all of the parents who helped out with the Halloween party. It was a huge success.

On Friday, November 9, we will have a special presentation given by Mr. Pitts about electricity.

The 4<sup>th</sup> grade October Newsletter is complete! Be looking for it in their Friday Folder.
