### Show and Tell

Monday: Colton

Tuesday: Quincie

Wednesday: Carson

Thursday: Happy Birthday, Shelby Scholz!

Friday: Kyla and Evan H.

Next Monday: Marcus

---

Our class will take their field trip on Friday, October 5<sup>th</sup>. We will go to Kansas City to Kaleidoscope, the Hallmark Visitor's Center, and Vaughan's Orchard on the way back home. Parents are welcome to come as chaperones, but younger brothers and sisters will not be able to attend. We'll leave around 8:00 and return by approximately 3:00. I'll send out permission forms and more information soon.

---

On Friday we had a taste testing contest against Actress Annie's P.B.& J. sandwich with (A) apricot jelly and Polly Panda's P.J.&J sandwich with (P) purple jelly. Ask your little one who won. We made a graph on the board. The votes were 11 to 4 and I bet you can guess who came in first place.

---

On Friday I sent home an orange paper which had our 1<sup>st</sup> set of read, write, and draw Animated Literacy pictures to go with the sounds, letters, and spelling patterns we are studying. Please keep these, cut them up, and place them in a baggie. (Or whatever you desire) Then your child can match the pictures to the word cards. Please practice these often – this will certainly help your child.

If your child didn't make it home with this orange paper, please let me know and I'll be glad to send another one.

---

### This Week:

Animated Literacy Phonics Program: We'll continue reviewing p, u, o, a, m, and x. Our new letters and sounds will be d and t. We'll spell dad, map, mop, and top.

Reading: Our vocabulary word is "a." We'll read the little booklet A Present, and continue reviewing alphabet letters. Also, the concept of first, next, and last will be studied.

This booklet will come home in a colorful bag known as a Kiwi bag. Whenever the Kiwi bag comes home, you need to send the bag and the booklet back on the next day of school.

Math: We're continuing to work on the correct formation and number concepts of numbers 1-10. We'll use play dough to form the numbers.

---

\*Does anyone have shoeboxes that we could use for a class project? Women's shoeboxes are generally the right size. If so, please send them as soon as you can.
