The first week of December at preschool had the children doing more Christmas activities with our Christmas unit. We have read lots of Christmas books about Santa, elves, and reindeer. We hope you like the wreaths they made for your door. We are still making presents for parents and when complete, we will send them home.

In our Animated Literacy we met Mimi Mermaid. We are still doing many number activities using the number ten. We even went number fishing this week.

Rhyming and opposite activities have been fun this week too. If your child bursts into a Christmas song, the reason is they have been singing them in Music as well as the classroom, and really seem to enjoy hearing themselves sing.

We have started our next fine motor activity with lacing a Christmas ornament that we made. Another busy week in preschool!
