SCHOOL BUS DRIVER APPRECIATION DAY!

The transportation of students to and from school is a necessary part of a sound educational program. Competent and professional school bus drivers and uniformity in operation of buses must be realized if a SAFE, efficient and economical transportation program is to be maintained. Driving a vehicle the size of a school bus is an extremely difficult task, involving knowledge, visual skills, sound judgment, and accurate responses. All of these skills are on public display daily.

School bus drivers play a valuable role in our educational system. In many instances, they are the first representative of the school system to meet the children in the morning, and the last to see them at night.

School bus drivers are responsible for efficient and economical operation of the school bus, for the SAFETY of passengers and the vehicle, and for good order and discipline; in short, for operating an orderly, pleasant, SAFE school bus.

Please remember that school bus drivers are a vital part of the largest and SAFEST transportation system in the world; that of transporting America's most precious resource to and from school daily --SAFELY.

Thank you to all of our school bus drivers for all you do!
