

## **ACCELERATED READER MANAGEMENT**

### **STUDENT ACCESS**

**Student are to log on the network using their own network log on and password.**

**Student should next log on to the remote access using their password.**

**Student selects to start.**

**Under programs, select Renaissance Place.**

**Select Student.**

**Enter student AR/STAR login.**

**Teacher enters AR/STAR password.**

**Student selects Accelerated Reader.**

**Take a quiz.**

**Type in the name of the book, or quicker to type in the test number.**

**The title should appear. If it doesn't, something is probably spelled wrong.**

**When the correct title appears, say yes.**

**The quiz will begin.**

**The student is not to receive any help while taking the quiz. There will be 5, 10, or 20 questions depending on the length of the book and it's point level,**

**When the quiz is over, the student should log out of Renaissance Place, log out of the remote access, and log out of the network.**

## **TEACHER MANAGEMENT OF ACCELERATED READER**

**Teacher logs on to the network with network login and password.**

**Teacher logs on to the Remote Access.**

**Select Start.**

**Select Programs.**

**Select Renaissance Place.**

**Select Teacher/Administrator.**

**Use AR/STAR teacher login and password.**

**Classroom management gives you access to your class and how they are testing. You will need to look around and try things out to see what is useful to you. You can set goals for the class, or goals for individual students.**

**Reports can be customized to fit the entire class or selected students.**

**If you print, be sure that you use the print button at the top of the Renaissance Place screen, and not the windows print button in the windows toolbar.**

**You cannot delete student quizzes. If there is a problem, notify the librarian with your explanation of the problem.**

**You cannot enter your own written quizzes. We are no longer writing quizzes for our elementary or middle school centers.**
